

Katrina Rogers Bio

Astute Research & Strategic Solutions | Guiding Life Science Leaders Through Complex Challenges with Trusted Capability Enhancement and Confidential Collaboration

Katrina Rogers is an expert in leadership, change management, and strategic problem-solving, with more than 25 years of distinguished experience in the life sciences sector. She specializes in facilitating breakthroughs for legal, financial, and technical stakeholders, drawing on her deep knowledge of medical product discovery, development, and manufacturing.

As an ASQ-Certified Manager of Quality/Organizational Excellence and Pharmaceutical GMP Professional, Katrina excels in laboratory and technical operations, compliance, and regulatory standards. Her proven leadership includes founding Evergreen Bioscience Innovation, serving as Key Opinion Leader Director for the acclaimed BLPN Club, and mentoring future professionals as adjunct faculty at Washington State University's College of Pharmacy and Pharmaceutical Sciences.

Through her executive advisory firm, Katrina enables entrepreneurs, investors, and industry pioneers to navigate complex scenarios with confidence—delivering strategic capability enhancement, risk mitigation, and collaborative solutions, all with the highest degree of confidentiality and professionalism.
